Price Advanced on Rapid- Compulsion Advocated fire Buying With Tremendous Bidding.

It is becoming daily more apparen that the prophets who predicted a much higher price than the opening one for the new issue of Capital Traction bonds are soon to have their good opinion verified, as the demand grows, with the natural result of a consequently as-

cending scale in the price.

Today on the Washington Stock Exchange every broker seemed well supplied with orders and during the short became so great that the acting secing and had to call for assistance. The opening sale was the lowest of the day and belated brokers allowed the market 24% to get away from them, paying 1071/2 at the close to fill orders.

About the only stock that showed an acession of strength was that of the Washington Railway preferred, which was well supported around 79 and found buyers at a good fraction better among the class of investment seekers.

The selling of Gas stock called forth several fibes at the expense of the pool, which, it is said, has been responsible for recent boom and shows now a disposition to unload several of its holdings on any favorable opportunity. It is noticed that the selling is now from the same sources that so vigorously bid up the price but a short time are same sources that so vigorous the price but a short time ago,

KENSINGTON, Md., May 6.-This own is in the throes of a mayoralty Brisk and spirited balloting for the

candidates, John Cannon, Democrat, and James M. Proctor, Republican, beat 1 o'clock this afternoon and will continue until 6 in the evening No party issue presents itself in this

lection. It is a plain case of popularity versus experience. The one issue is the judicious expenditure of \$550 which highways and ptkes.

Although a lifelong resident of Kensington and numbering the majority of the citizens as his friends, Mr. Proctor appears to be handicapped by his youth and the fact that his position as assistant district attorney in Washington necessitates his presence in the National Capital throughout most of the day.

Mr. Cannon is sixty years of age and a retired builder and contractor. He is a hardshell Democrat and has resided here only a few days longer than is necessary to give him the right of franchise. He has had experience in the office of mayor, as he served in that capacity in Manassas, Va., about twenty years ago. sington and numbering the majority of

capacity in Manassas, Va., about twenty years ago.

Nothing shor: of a landslide will give the successful candidate a plurality of more than twelve. The town has been canvassed and polled several times and Mr. Cannon's friends say that out of the 136 votes in the entire town he will receive at least seventy. This would give him a plurality of four votes over his opponent, Mr. Proctor's supporters have lined up behind him, however, and his opponent, Mr. Proctor's supporter have lined up behind him, however, and declared that he will get 72 or 74 votes
